## WORK EXPERIENCE

### AVINYA INC.

TAYTAY, RIZAL

JUNE 2024 - Present

#### UI UX Designer

- Designed clean, modern UI layouts aligned with project requirements and visual guidelines.
- Developed responsive frontend components and optimized interface behavior across devices.
- Collaborated with backend developer to validate API responses and sync UI functionality with system logic.
- Converted wireframes into functional screens using reusable components.
- Managed end-to-end ID system setup: photographed staff/students, handled equipment, designed layouts, printed, and distributed IDs efficiently.
- Integrated REST APIs into frontend views, ensuring smooth data flow and dynamic rendering.

### ASKI GROUP OF COMPANIES INC.

CABANATUAN, NUEVA ECija

JANUARY 2024 - MAY 2024

#### ASSISTANT WEB DEVELOPER / UI UX DESIGNER INTERN

- Assisted in designing clean, user-friendly interfaces for internal web applications.
- Developed and updated frontend pages using modern web technologies and responsive layouts.
- Created wireframes and UI mockups to support feature planning and design alignment.
- Collaborated with the development team to refine layouts and ensure smooth implementation.

## PROJECTS

### RiceVision - Capstone Project

- Led a team to create a web system that identifies rice diseases from images.
- Designed a user-friendly interface with responsive features.

### iSynergies Management System - ASKI Isynergies

- Collaborate with the development team to design and enhance the system's layouts and features.
- Develop wireframes and user interfaces that incorporate responsive layouts.
